Dear Ms. Nickel and Ms. Chapman,

Thank you for the message. The most appropriate people for you to meet with are Region 7's Acting Regional Administrator and the Headquarters Superfund Leadership team as they are the decision makers on the West Lake Landfill Superfund site. They are the individuals who the Administrator expects to carry out this responsibility on behalf of the Agency. It's our understanding you will already be in DC on May 6 for other business and have offered the in-person meeting with these senior Agency officials at that time. If this isn't convenient for you we could find another day in May for you to meet in St. Louis with Mr. Hague.

Regarding an advance discussion, Ben Washburn and I would welcome that opportunity.

Best regards,

Curtis

Curtis D. Carey

Region 7 Public Affairs Director

U.S. Environmental Protection Agency

Dear Curtis,

Thank you for your concern about our community and the negative impact the Bridgeton and West Lake Landfills are having on it. As you know, this issue has been under EPA authority for 20 years with little progress. It is our understanding that you would like us to have a second meeting with Mark Hague, Acting Regional Administrator, Mathy Stanislaus, and Barry Breen, as a prelude to meeting with EPA Administrator Gina McCarthy. While we feel that this step is unnecessary, we would be glad to accommodate your request as long as it does not delay our meeting with Administrator McCarthy. Therefore, we propose you schedule another conference call or you assemble the team for a meeting here, in St. Louis, prior to our departure for Washington DC, which is scheduled for Wednesday, May 6<sup>th</sup>.

Sincerely,

Karen Nickel and Dawn Chapman
